

Dr. Susan Tighe, PhD, PEng, FCAE, FCSCE is the Past President of the Canadian Society for Civil Engineering and is the Chair of the 2021 CSCE Conference to be held in Niagara Falls in May 2021. She is the Provost and Vice President Academic and a Professor of Civil Engineering at the McMaster University. Prior to joining McMaster University she was the Deputy Provost and Associate Vice-President, Norman W. McLeod Professor in Sustainable Pavement Engineering, Director of the Centre for Pavement and Transportation Technology and a Canada Research Chair at the University of Waterloo. She has been a licensed professional engineer in Ontario since 1995.

Susan has gained national and international recognition for her outstanding contributions to the development, design, and management of sustainable concrete and asphalt transportation infrastructure. Her reputation as a scholar, educator, and professional engineer is well illustrated by the breadth of her technical publications in pavements and infrastructure and involvement in several national and international research projects in Canada, Africa, Chile, India, China, Australia, New Zealand and throughout North America.
