

Dr. Vimy Henderson, Ph.D., P.Eng. (ON, SK) is the Director of Eastern Operations at PSI Technologies Inc. Dr. Henderson is a professional engineer in Ontario and Saskatchewan who has extensive experience in pavement and materials engineering. She has provided design, construction, project specification and asset management consulting to municipal, provincial and private owners for over 10 years. She has been the Project Manager on a variety of projects throughout Canada, working with road, airport, rail and port authorities and design build teams. Her experience in lab testing and non destructive data collection and analysis allows her to help clients understand the condition of their assets and make educated decisions for the future.

She is an Adjunct Professor at the University of Waterloo and a Sessional Lecturer at McMaster University in Pavement and Materials Engineering and Infrastructure Management. She is a board member of the Transportation Association of Canada Foundation and treasury of the SW Chapter of WTS. She has published and presented on a variety of subjects related to pavement and materials engineering around the world.
